@Mention

For clients who have gained access to their client portal (<https://ceed.space>) you can navigate to the **Products** tab and purchase one-hour advisory sessions with the advisor of your choosing by entering the quantity of sessions you would like in one hour increments and adding the selection to your cart.

Once the item is added to your cart, you will be required to complete the payment. From there you will be sent an email copy of your invoice and then a CEED staff member will send you an email to self-schedule the best meeting time for your schedule, using the advisors calendly link.
